To reiterate what is immediately needed to rectify this stop-sale:

- 1) register the 2 products referenced on the stop-sale notice on fertilizer registration form R-67, and
- 2) send in a label for

The pallets of buckets were not all properly labeled, the plastic on some pallets had handwritten with a marker - but were not all labeled. Each pallet should be labeled with an appropriate label.

Julie will send you screenshots of all your products to assist you in registering all your specialty products.
