End users who purchase all corn from, or test all corn at, a One Sample Strategy location(s) are exempt from OTSC regulatory sampling of corn and mycotoxin analysis. Exemption eligibility depends upon the availability of complete purchase records for review by Feed and Fertilizer Control Service (FFCS) field staff and extends only so long as the One Sample Strategy supplier remains an eligible participant in the program. The following firms are currently considered exempt from regulatory sampling of corn for aflatoxin.

If you believe your firm qualifies for the regulatory exemption, please contact Mary Sasser at mary@otsc.tamu.edu.
